

how to achieve your best, brightest skin with

# PowerBright TR<sub>x</sub><sup>TM</sup>

## 1 see a pro

Your Dermalogica skin therapist can prescribe a series of professional treatments for best results.

## 2 integrate!

**PowerBright TR<sub>x</sub><sup>TM</sup>** treatment products can be integrated into any existing Dermalogica regimen for powerful skin-brightening results. Start by applying **C-12 Pure Bright Serum** twice a day after your Dermalogica cleansing and toning regimen.

## 3 spf on...

Moisturize daily with **Pure Light SPF50** to protect skin from UV rays, the primary contributor to uneven skin tone.

## 4 spots off!

Moisturize nightly with **Pure Night** to help reduce existing pigmentation spots and restore luminosity.
