"I do"  
with  
amazing  
skin!

A flawless wedding day includes flawless skin! The skin health experts at Dermalogica are here with tips to achieve your best skin on the big day.

6 months before

Start a series of skin treatments (one per month) to get skin in peak performance. Ask your skin therapist to start a series of deep cleaning, exfoliating treatments.

5 to 4 months before

It's time to focus monthly skin treatments on your biggest concerns (fine lines, age spots, breakouts). Problem-solve at home with **Overnight Clearing Gel** and **Age Reversal Eye Complex**.

3 to 2 months before

Get skin glowing, firm, energized and hydrated! Watch for stress hormones that can trigger breakouts. Home care must-haves: **MultiVitamin Power Recovery® Masque** and **Concealing Spot Treatment**.

1 month before

Schedule your final skin treatment 3 to 4 days before your wedding. At home on the day before, perform gentle exfoliation with **Daily Microfoliant®** and energize skin with **MultiVitamin Power Recovery® Masque**.

wedding  
day

Devote your day to make-up and hair. Your on-hand skin care kit should contain **Concealing Spot Treatment** in case of a breakout, **Antioxidant HydraMist** to energize and keep make-up fresh, and **Renewal Lip Complex** to keep lips conditioned.
